

Poster Sessions

- P101 A comparison of artifact reduction methods for real-time analysis of fNIRS data
T. Nozawa and T. Kondo
- P102 Recalibration of time to contact
Y. Koike, K. Yoneyama, and H. Kambara
- P103 Environmental modeling and identification for autonomous mobile robot
M. Gouko and K. Ito
- P104 Neural cross talks construct the muscular and spatial coordination during bilateral finger movements
T. Sakurada, H. Gomi, and K. Ito
- P105 Learning to generate probabilistic event transition sequences via chaotic dynamics
J. Namikawa and J. Tani
- P106 Why the hand motion precedes the target in tracking experiment?
Y. Hayashi, Y. Tamura, K. Sase, K. Sugawara and Y. Sawada
- P107 A neuro-dynamical model for understanding mechanisms of goal-directed action
H. Arie, T. Endo, T. Arakaki, S. Sugano and J. Tani
- P108 Neural mechanisms underlying trial-and-error in macaque prefrontal cortex
A. Fujimoto and T. Ogawa
- P109 Mind your neighbors: Risk, impulsiveness and “biological motion” in domestic chicks
H. Amita, M. Miura and T. Matsushima
- P110 Motor Imagery in Force Field Adaptation
M.N. Anwar, N. Tomi and K. Ito
- P111 Combined Mechanisms of Internal Model Control and Impedance Control under Dynamical Environments
N. Tomi, M. Gouko and K. Ito
- P112 Object-centered position coding for hand manipulation action in the parietal cortex of the monkey
A. Murata, W.N. Shein and H. Sakata
- P113 Inference of other 's sensorimotor patterns based on symbolic query with motion performance
K. Okuno and T. Inamura
- P114 Analyzing the process of autonomous specialization in reinforcement learning robots
T. Yasuda, S. Sekimoto and K. Ohkura
- P115 Electroencephalogram (EEG) Measurement During Ankle Motion
M. Takahashi, K. Takeda, R. Osu, Y. Otaka, T. Hanawaka, M. Gouko and K. Ito
- P201 Reward prediction error computation in the pedunculopontine tegmental nucleus
Y. Kobayashi
- P202 Tonic and phasic regulations of muscular tonus through the hypothalamus
Y. Koyama, K. Takahashi, Y. Abe, A. Sakuma and K. Takakusaki
- P203 Effects of *Cbln1* infusion on the hindlimb kinematics during treadmill locomotion in adult *cbln1*-null mice
E. Takeuchi, D. Yanagihara, A. Ishida and M. Yuzaki
- P204 Spinomuscular coherence in monkeys performing a precision grip task
T. Takei and K. Seki
- P205 Development of the Spine Structure for the Generation of the Locomotion
T. Takuma, M. Ikeda and T. Masuda
- P206 Design of a single actuated, undulant swimming robot
M. Fremerey, L. Fischheiter, J. Mämpel and H. Witte

- P207 AirArm – an anthropofunctional robot arm with inherent flexibility
A. Thallemer, C. Ament, M. Danzer, M. Fischer and H. Witte
- P208 Reward-related dopamine release in the rodent and primate brain
K. Yoshimi, Y. Einaga, T. Nakazato and S. Kitazawa
- P209 The Effects of Substrate Inclination on Torque Patterns in Rats
E. Andrada, A Schmidt, S. Koehring, J. Mämpel, M.S. Fischer and H. Witte
- P210 Adaptive Quadrupedal Dynamic Walking using Phase Modulations based on Leg Loading/Unloading
C. Maufroy, T. Nishikawa and H. Kimura
- P211 Quantification of Motion Capability of Pole Climbing Robots
J. Mämpel, S. Köhring, A. Karguth, C. Trommer and H. Witte
- P212 Anthropomorphic Monopod Bouncing Equipped with Biarticular Muscles
K. Hosoda, Y. Sakaguchi and H. Takayama
- P213 Dynamic changes of firing frequency and synchrony of the rat hippocampal neurons caused by BMI
Y. Sakurai and M. Nomura
- P214 The neural correlates of the sensorimotor rhythms as revealed by simultaneous EEG-fMRI: implications for brain-computer interfaces
T. Hanakawa, E. Kaneko and K. Omata
- P215 Quantitative evaluation of feed-forward and feedback controllers for wrist movement in human
J. Lee Y. Kagamihara and S. Kakei
- P216 Role of the Purkinje cell-specific $\delta 2$ glutamate receptor in fear conditioned heart rate responses in mice
H. Kotajima, D. Yanagihara, A. Ishida and M. Yuzaki
- P217 Classification of Rat Locomotion using Epidural Electrodes –Toward the Development of Low-Invasive Brain-Machine Interface–
K. Kita, T. Uejima, M. Takita and H. Yokoi
- P218 An Analysis of the Kinematic Indices of Human Walking
T. Funato, S. Aoi and K. Tsuchiya
- P219 Stability of Quadruped Locomotion under Changeable Body Stiffness
T. Kobayashi, K. Tsujita and T. Masuda
- P220 Anticipatory and Reactive Locomotor Control during Perturbed Locomotion in Bipedal Walking Monkey
F. Mori and K. Nakajima
- P221 Study on brain adaptation using rat-machine fusion systems and multi functional neural electrodes
T. Suzuki, N. Kotake, T. Kohama, O. Fukayama and K. Mabuchi
- P222 Toward Synthetic Understanding of Snake Locomotion
K. Inoue
- P223 Information processing in the striatum
A. Nambu, N. Hatanaka and S. Takara
- P224 Generation of adaptive human bipedal locomotion based on a neuromusculoskeletal
S. Aoi, N. Oghihara, T. Funato, Y. Sugimoto and K. Tsuchiya
- P225 Descending routes of locomotor driving signals involved in the generation of coordinated hopping locomotion in decerebrate rabbits
K. Matsuyama, M. Ishiguro and K. Takakusaki
- P226 Computer simulation study of bipedal walking in the Japanese macaque on a musculoskeletal model
N. Oghihara, S. Aoi, Y. Sugimoto, K. Tsuchiya and M. Nakatsukasa

- P227 Neuronal Activity in Primary Motor Cortex during Quadrupedal versus Bipedal Locomotion on a Treadmill in an Unconstrained Japanese Monkey
K. Nakajima, F. Mori, A. Murata and M. Inase
- P228 AirArm – Model-based Control of a Compliant Robot Arm
C. Ament, A. Thallemer, M. Danzer, M. Fischer and H. Witte
- P301 Observations and computer simulation of the social behavior in the honeybee
R. Okada, H. Ikeno, T. Kimura and E. Ito
- P302 A Neuro-modulation Model of Behavior Selection in the Fighting Behavior of Male
K. Kawabata, T. Fujii, H. Aonuma, T. Suzuki, M. Ashikaga, J. Ota and H. Asama
- P303 Directional-dependent plasticity in cercal-to-giant interneuron synapses in the cricket wind-sensitive system
H. Ogawa
- P304 Neural activity mapping for social cognition in the crow
E. Izawa, K. Nishizawa and K. Oka
- P305 Direct evidence of neuronal projection between hippocampal formation and auditory area by fluorescent dye imaging
M. Yamamoto, F. Takayama, A. Fujimura, K. Hotta and K. Oka
- P306 pH responses in hippocampal formation of the zebra finch evoked by sound stimulation
F. Takayama, M. Yamamoto, H. Horita, K. Hotta and K. Oka
- P307 Social risk representation in primate caudate nucleus
G.S. Santos, Y. Nagasaka, K. Takenaka, H. Nakahara and N. Fujii
- P308 Analysis of Schooling-like Behavior of Medaka Fish and Identification of a Telencephalon-and-Hypothalamus-Preferential Gene in the Medaka Brain
H. Imada, Y. Suehiro, T. Okuyama, D. Kurabayashi, A. Shimada, K. Naruse and H. Takeda, T. Kubo and H. Takeuchi
- P309 Brain-Machine Hybrid System to Evaluate Adaptability in an Insect
R. Minegishi, A. Takashima, D. Kurabayashi and R. Kanzaki
- P310 Sense of Agency Effected by Causal Relationship Between Motor Command and Sensory Feedback
M. Murabayashi, Y. Ikemoto, M. Ohtake, T. Maeda, M. Kato and H. Asama
- P311 Optomotor response of medaka fish to rotating stripes at sinusoidal speed
Y. Suehiro, T. Okuyama, H. Imada, K. Naruse, D. Kurabayashi, A. Shimada, H. Takeda, T. Kubo and H. Takeuchi
- P312 A Mathematical Model for the Caste Differentiation in Termite Colonies by Hormonal and Pheromonal Regulations
Y. Ikemoto, Y. Ishikawa, T. Miura and H. Asama
- P313 Identification of the chemical bond between leader and follower ants during tandem running in *Diacamma* sp from Japan (Hymenoptera: Formicidae)
N.F. Tsujii, K. Tokunaga, T. Akino, K. Tsuji and R. Yamaoka
- P314 Carbon cycling of a honeybee colony under the environmental variation
K. Iwata, M. Ohashi, T. Kimura, R. Okada, T. Akamatsu and H. Ikeno
- P315 Analysis of Ants' Behavior from Single to Multibody
K. Sugawara, M. Yuki, Y. Hayashi, K. Yaegashi, T. Kikuchi and K. Tsuji
- P316 Forgetting curve derived by serotonin hypothesis in Cricket, *Gryllus Bimaculatus*
S. Yano, Y. Ikemoto, H. Aonuma and H. Asama
- P317 Roles of nitric oxide and octopamine in the aggressive behavior of the cricket
M. Sakura, M. Kikuchi and H. Aonuma
- P318 Modeling of the effects of multi-modal inputs on the aggressive behavior using handicapped crickets
T. Mizuno, M. Sakura, M. Ashikaga, H. Aonuma, R. Chiba and J. Ota

- P319 Brain-Machine Hybrid System -To Investigate Adaptability of an Insect Brain-
A. Takashima, R. Minegishi, D. Kurabayashi and R. Kanzaki
- P320 Oscillator Network Model for Signal Buffer in Neural Circuits
T. Moriyama and D. Kurabayashi
- P321 Colony-size dependent adaptive strategies in an ant society and their underlying self-organized regulation
K. Tsuji, H. Ohtsuki, H. Shimojo, T. Kikuchi, H. Ohnishi, and other five authors
- P401 Implicit Control Law that Enables Stable Passive Dynamic Running
D. Owaki, K. Osuka and A. Ishiguro
- P402 Adaptation by environment-dependent-dynamical network in Physarum
A. Takamatsu, R. Okamoto, M. Ito and T. Gomi
- P403 A Robotic Approach to Understanding Robustness
J. Hubert, E. Matsuda, E. Silverman and T. Ikegami
- P404 Shape and Motion dynamics in Self-Moving Oil Droplets
N. Horibe, M. Hanczyc and T. Ikegami
- P405 Simultaneous Adaptation of Stiffness and Motion Based on Resonance for Biped Walking Robot
M. Uemura, K. Kimura and S. Kawamura
- P406 A Novel Method of estimating the phase response function – Weighted spike-triggered average of fluctuating stimulus –
T. Aoyagi and K. Ota
- P407 From Active Perception to Language
Y. Ogai, R. Uno and T. Ikegami
- P408 Stability Conditions of Feedback Robot Motion Control Based on Linear Transformation from Vision to Motion
S. Kawamura, Y. Hayashi, T. Mitsuda, M. Uemura, M. Sekimoto and T. Isaka
- P409 Modeling and emergence of flapping flight of butterfly based on experimental
K. Senda, M. Iima and N. Hirai
- P410 Rail grid optimization by an algorithm inspired from Physarum
S. Watanabe, A. Tero, A. Takamaatsu and T. Nakagaki
- P411 Real-time Adaptive Reconfiguration of an Amoeboid Modular Robot against Environmental Changes
M. Shimizu and A. Ishiguro
- P412 Role of bi-articular muscles in linearized joint kinematics
T. Mitsuda, S. Kawamura, M. Uemura and M. Sekimoto
- P413 An analysis of leg trajectories of human walking from the view point of joint
S. Kaichida, Y. Hashizume and J. Nishii
- P414 The effect of freezing and freeing of degree of freedom on learning efficiency
R. Fukuda and J. Nishii
- P415 Constraint and exploitation of redundant degrees of freedom during walking
J. Nishii
- P416 Port-based modeling of N-DOF hydraulic robots
S. Sakai and K. Osuka
- P417 3D Passive Dynamic Walkers with Flat Feet and Ankle Springs: Experiment and Analysis For Longer and More Stable Step
T. Kinugasa and K. Yoshida
